

Landedale Lake near  
Elkhorn Wis  
Sept

My dear Doctor Watson

Wife and I are  
here for a few days to do  
some work that could not conve-  
niently be accomplished while the  
whole family were occupying  
the cottage -

Just as I was leaving  
home I received the advance  
pages from Frays Manual - the  
appropriate heading and the  
altogether neat get up of this  
little excerpt quite takes me  
by surprise - and then what a  
generous supply - enough, I fancy,  
to last over in the relicious  
Bebrance into the third or fourth  
generation!

I thank you most heartily -

As ever

M. S. Debb

P.S. I send you a copy just to show

How easy it would have been to  
have discovered S. purpurina. if I  
had only had my nets about me  
at the right time -
